**The American Academy of Dental Hygiene, Inc. - Unique in its  
Benefits to a Diversified Membership Since 1985**

The American Academy of Dental Hygiene (AADH) is an organization whose vision is professional growth through leadership, mentorship and fellowship. Membership in AADH complements required ADHA membership, as AADH is the only dental hygiene organization which recognizes outstanding contributions with a Fellowship credential.

The Academy goals are to foster continuing education, provide formal recognition of excellence in the practice of dental hygiene; and recognize distinguished community service. Recognized by ADHA, various international dental hygiene associations, and most states, the AADH, Inc. is the only organization that approves continuing education courses for dental hygiene

We are actively recruiting dedicated and enthusiastic members and we invite you to visit our website to download an application. [www.aadh.org](http://www.aadh.org)
